

FOLKLORE WELCOMES MEL PULJIC

Folklore Productions International is proud to join forces with Mel Puljic, formerly with Mondo Mundo. As founder and mastermind of that agency, Mel is a major force in North American artist representation with an unrivaled knowledge and expertise in world music.

Established in 1957, Folklore is well into its third generation of representing roots and traditional artists, with complementary activities in the worlds of publishing, record production and sound design. With Mel, we will expand our international vision, uniting two superb rosters under Folklore's banner.
